1 INTRODUCTION

1.1 Overview

Event management is the process of creating and maintaining an event. This process spans from the very beginning of planning all the way to post-event strategizing. At the start, an event manager makes planning decisions, such as the time, location, and theme of their event. During an event, event managers oversee the event live and make sure things run smoothly. After an event, event managers are tasked with reviewing event data, submitting KPI and ROI findings, and staying on the ball for any post-event offerings. All different branches of planning go into event management, including various types of sourcing, designing, regulation checks, and on-site management. In event management, you could be in the process of creating a conference, a product launch, an internal sales kick-off, or even a wedding. Really, any event that requires considerable planning

5 ADVANTAGES

List of advantages and disadvantages of the proposed solution

- Registration for an event can be within the time.
- Complete work on time.
- Management of workflow can be done easily.
- Increase the accessibility.

DISADVANTAGES

- Difficult to handle work manually.
- Time consuming process.
- More human power required.

6 APPLICATIONS

The areas where this solution can be applied

- An Event management system (or Event management software) helps organizers plan, execute and report on events, driving success for their business.

7 CONCLUSION

Conclusion summarizing the entire work and findings.
Event management system [EMS] could be a terribly effective application which might be accustomed an excellent extent. EMS have several benefits over the normal system. A number of these blessings are centralized knowledge, up-to-date standing coverage, E-mail notifications, simple use, backups etc., the employment of this application reduces the additional time and efforts needed to manage and monitor the events in schools.

8 FUTURE SCOPE

Enhancements that can be made in the future.

- Secure administrative panel.
- Teachers have to register for the events by visiting admin.
- Admin or teachers can only create an event by login.
- Latest news and important links can checked by anyone on news page.
- Users will have following facilities.
- Easy communication with the admin
- Take an get part in an event as a participant and audience as well
